INDUSTRIAL PROJECTS

Attendance Management System

- **Role:** Design and Development 2023
- **Project Description:** This project focuses on creating an efficient and automated **Attendance Management System** that simplifies the tracking and recording of attendance in educational or corporate settings. The system allows teachers or administrators to log attendance digitally, minimizing errors and the manual effort associated with traditional attendance methods. Additionally, the system includes features such as generating attendance reports, and monitoring student or employee punctuality.
- **Technologies:** HTML, CSS, PHP, MySQL, Python

PROJECTS/RESEARCH PAPER
